"If you want to teach people a new way of thinking, don't bother trying to teach them. Instead, give them a tool, the use of which will lead to new ways of thinking."

- R. Buckminster Fuller

Holistic Vision Is The Master Skeleton Key That Reveals Everything

Just as a skeleton key opens all doors in a structure, Holistic Vision opens the hidden foundations of all issues, opportunities, people, situations.

The Holistic Vision Program is an intense and highly interactive psychological workshop filled with deceptively simple drills composed of two concepts.

Psychological Strategy

- Reveals limited visions and mindsets regarding threats and opportunities
- Habituates constant divorcing and exercising of visions and mindsets
- Habituates psychological exercises to see the world holistically

The System of Interconnectivity

- Reveals how all solutions for all complex issues surround us daily
- Reveals how seemingly unrelated concepts are deeply related
- Reveals how it hides in plain sight and governs everyone and situation

Holistic Vision guts and rebuilds entire thinking foundations to force game-changing action and thought leading to business, personal and social step-change by seeing past distractions and superficial variables to the underlying, hidden-in-plain-sight universals behind everything.

"All the most powerful ideas in history go back to archetypes."

- Carl Gustav Jung

Building The Most Powerful Thinking Foundations

Holistic Vision uses the universal foundations, archetypes, principles, algorithms, concepts that surround us every day and rule every issue, opportunity, person and situation, yet hide in plain sight; similar to the concepts of air and gravity.
